Pulse Master Latest

Pulse Master is a professional audio recording, playing and mastering tool for any Windows computer. It includes 10 professional recording, playing and mastering effects and helps you create your own. Rhythmic Notation: Pulse Master will automatically transpose a song so that it is in the key and tempo that you are in at the time of recording. You can also transpose manually if you want. Pulse Master provides you the functionality to add a 'Bar in a box' and 'Bass Guitar' to any track. With the 'Bar in a box' you can add a bassline and more easily perform your tracks to a real drums set or a sampler. With the 'Bass Guitar' you can emulate the sound of an electric bass guitar and all you have to do is double click to create the added effect. Fretboard Notation: Pulse Master provides you the functionality to add a 'Bar in a box' and 'Bass Guitar' to any track. With the 'Bar in a box' you can add a bassline and more easily perform your tracks to a real drums set or a sampler. With the 'Bass Guitar' you can emulate the sound of an electric bass guitar and all you have to do is double click to create the added effect. Timbral Notation: Pulse Master provides you the functionality to add a 'Bar in a box' and 'Bass Guitar' to any track. With the 'Bar in a box' you can add a bassline and more easily perform your tracks to a real drums set or a sampler. With the 'Bass Guitar' you can emulate the sound of an electric bass guitar and all you have to do is double click to create the added effect. Using 'Bar in a box' Pulse Master provides you the functionality to add a new instrument like a synth or other new sounds to your track. Adding a 'Bar in a box' is simple and it's only a matter of selecting the bar and clicking to put it on the track. Pulse Master will automatically transpose a song so that it is in the key and tempo that you are in at the time of recording. You can also transpose manually if you want. Vocals & Effects: Using the built-in 'Vocal Remover' you can remove the singer from your tracks. With the 'Reverse' button you can reverse tracks that have already been recorded or play them backwards.

What's New in the?
